About Alina Global

At Alina Global, we place great importance on establishing strong business partnerships worldwide. One of the most valuable steps in this vision is our collaboration with Asoa Otomotiv, a company that stands out in the automotive sector for its many years of experience and high-quality standards.

Asoa Otomotiv's ready-to-assemble brake hoses, brake lines, one-piece fittings, and connection components are manufactured not only with superior engineering but also with a strong focus on safety and quality. We are proud to serve as the bridge to bring these products to international markets.

For us, this collaboration is not just a commercial partnership; it is a strategic alliance based on quality, safety, and long-term success. Together with Asoa Otomotiv, we will continue to add value to the automotive industry and provide reliable solutions on a global scale.

Alina Global – Trusted Partnership, Sustainable Success

Alina Global Hakkında

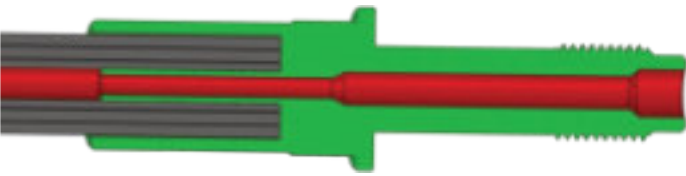

Alina Global olarak, dünya çapında güçlü iş ortaklıkları kurmaya büyük önem veriyoruz. Bu vizyonumuzun en değerli adımlarından biri de, otomotiv sektöründe uzun yıllara dayanan tecrübesi ve yüksek kalite standartlarıyla öne çıkan Asoa Otomotiv ile gerçekleştirdiğimiz işbirliğidir.

Asoa Otomotiv'in montaja hazır fren hortumları, fren boruları, yekpare rakorları ve bağlantı elemanları, yalnızca üstün mühendislik ile değil aynı zamanda güvenlik ve kalite anlayışıyla üretilmektedir. Bu ürünlerin uluslararası pazarlara ulaşmasında köprü rolü üstlenmekten gurur duyuyoruz.

Bizler için bu işbirliği yalnızca ticari bir ortaklık değil; aynı zamanda kaliteye, güvenliğe ve uzun vadeli başarıya dayalı stratejik bir birlikteliktir. Asoa Otomotiv ile birlikte, otomotiv sektörüne değer katacak ve küresel ölçekte güvenilir çözümler sunmaya devam edeceğiz.

Alina Global – Güvenilir Ortaklık, Sürdürülebilir Başarı

One-piece Fitting

-  One-piece fitting
-  Hose
-  Hydraulic oil

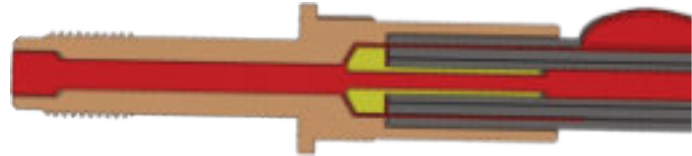

Manufactured from a Single Piece

Maximum Safety: Thanks to its one-piece structure, there is no risk of loosening or separation at connection points.

High Pressure Resistance: The entire body distributes pressure evenly, preventing hose bulging.

Superior Sealing Performance: With no internal pin assembly, there is no risk of fluid leakage.

Two-piece fitting

-  Fitting body
-  Pin
-  Hose
-  Hydraulic oil

Manufactured from Two Pieces

Risk of Assembly Errors: If the pin is not positioned correctly or the wrong type is used, the hose may be internally damaged.

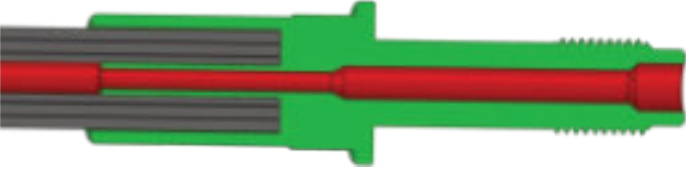

Weakness at Pressure Points: Pressure imbalance can occur at the connection area, which may lead to hose bulging or leakage.

Sealing Issues: Leakage may occur at the joint between the parts.

One-piece, unparalleled security: Only Asoa Automotive and Alina Global manufacture it worldwide.

Yekpare Rakor

Yekpare Rakor

Hortum

Hidrolik yağ

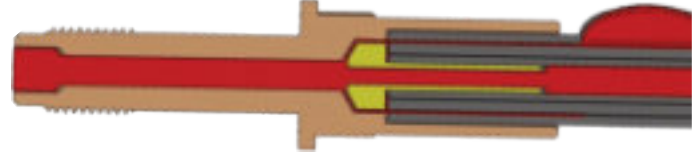

Tek parçadan üretilir

Maksimum Güvenlik: Tek parça yapısı sayesinde bağlantı noktalarında gevşeme veya ayrılma riski yoktur.

Yüksek Basınca Dayanıklılık: Tüm gövde, basıncı eşit şekilde dağıtır ve hortumun şişmesini engeller.

Sızdırmazlıkta Üstün Performans: İç pim montajı olmadığı için sıvı kaçak riski oluşmaz.

İki Parçalı Rakor

Rakor gövdesi

Pim

Hortum

Hidrolik yağ

İki parçadan üretilir

Montaj Hatası Riski: Pim doğru yerleşmez veya yanlış tip kullanılırsa, hortum içten zedelenir.

Basınç Noktası Zayıflığı: Bağlantı bölgesinde basınç dengesizliği oluşabilir, bu da hortumda şişme veya sızıntıya yol açabilir.

Sızdırmazlık Sorunları: Parçalar arasındaki birleşim noktasında kaçak oluşabilir.

Tek parça, eşsiz güvenlik: Dünyada sadece Asoa Otomotiv ve Alina Global üretiyor.
